

Journal 9

Raja Kantheti

November 14, 2024

Chages based on reviews:

I intend to the following changes in each of the mentioned aspects of the paper.

- Clarity of Purpose:
 1. Adding a cleat statement to reflect the story line I chose.
 2. Be more specific about scope of the paper being a survey followed by novel evaluations for comparisions.
- Introduction:
 1. I will make changes to introduction to be more precise and to the point.
 2. I will add a brief paragraph about what the paper found after my experiments.
- Audience and Background:
 1. I can add more terms I used in the paper to make the reader more familiar about the paper.
 2. I am not sure if I need to add more background information as the paper is a survey and not a research paper.
 3. I can add a brief paragraph about the audience of the paper.
- Classification and Related Research:
 1. I will take the feedback about distinguishing between survey papers and research papers.
 2. I would like to add a brief paragraph about the classification of the papers I surveyed and talk more about the research papers that has information about more advanced mmethods of Branch Prediction.
- Content Analysis and Citations:
 1. As I as in the flow of writing I couldn't add more citations, I will add more citations to the paper now in the second draft.
 2. I will add more content on overall comparative analysis of the papers, stating overall trends, improvements or similarities in performance across differencnt approaches.

- Experimental Setup (Section 5):
 1. I will clarify and add more details about the experimental setup and about the rationale behind the experiment, as I am conducting my own.
- Overall Structure:
 1. I will revise the paper more for consistency over logical flow from introduction to conclusion.
 2. I will modify the paper Structure to have more depth and corrected references.
- Expansion and Detail:
 1. I will add more in depth detail in explanation of various techniques.
 2. I will add references and draw my own conclusions by comparing and contrasting the knowledge from the papers I surveyed.
